# Solarbright Solar Powered Roof Fan

Solarbright Solar roof Fans are especially engineered to allow efficient fresh air circulation, which provide year round benefits to your home. It helps to cool your home and remove damaging moisture from your roof cavity while saving you big on energy costs. Solarbright solar roof fan can be thermostatically controlled.

Solarbright Solar Powered Roof Fan Output Chart:

Solar Panel	Venting Capacity	M <sup>3</sup> /m Output
10 Watt Model	up to 110 sq.m	up to 22 M <sup>3</sup> /m
20 Watt Model	up to 185 sq.m	up to 44M <sup>3</sup> /m

M<sup>3</sup>/m refers to cubic Meters of air moved per minute. The higher the M<sup>3</sup>/m number, the greater the capacity to move air

www.solarbright.com.au

Advanced optics brighten up to 25 square metres with a single tube!

# Solarbright DL System Series

with a leading warranty in the skylight industry

**15**  
YEAR  
WARRANTY

## Patented Solar Lens® Dome

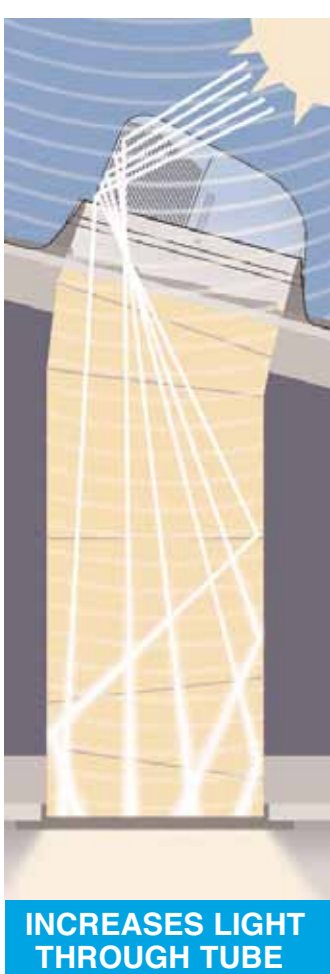

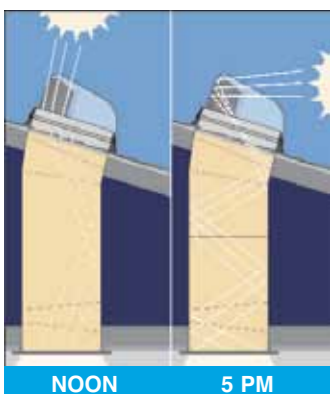

Patented reflex optic technology gathers sunlight—even during low-light hours in the morning, late afternoon, or during the winter.

## Reflective Light Tube

Optimises light reflected through shaft to control solar heat gain. UV stabilised finish will not yellow, fade, or delaminate.

## Dual Lens Diffuser

Spreads soft, natural light throughout interior spaces. Reduces solar heat gain and eliminates condensation.

Solarbright DL Range Output Chart

Model Size	Coverge Area	Wattage Equivalent	Energy Rated
250DL	15m <sup>2</sup>	300 watts	YES
350DL	25m <sup>2</sup>	500 watts	YES
550DL	65m <sup>2</sup>	1400 watts	YES

Performance: \*Based on full mid-day sun.
